

Elbit Vision Systems Ltd. Launched its Innovative Technology During ITMA Exhibition, Receiving Over \$1 M Orders

CAESAREA, Israel, October 17, 2011 /PRNewswire/ --

Elbit Vision Systems Ltd. (OTCBB: EVSNF), a leading global supplier of vision inspection and process monitoring systems, unveiled the IQ-TEX 4 at the recent ITMA 2011 Expo in Barcelona, which resulted in over \$1M of new orders.

The IQ-TEX 4 - a cutting-edge, fully integrated image acquisition & processing system - is the latest generation of EVS innovation. Built on their proprietary Smart Vision Camera (SVC) platform, IQ-TEX 4 utilizes high resolution, color line-scan technology, to achieve unparalleled results in detection accuracy and roll optimization.

With the capability to detect defects as small as 50 microns in size, the IQ-TEX 4 was specifically designed to provide Vision Empowered Monitoring (VEM) at every stage of manufacturing significantly increasing any user's productivity and efficiency through yield enhancement and operational cost reduction.

Sam Cohen, CEO of EVS commented, "We are very proud to introduce the IQ-TEX4. This new color inspection revolution will widen our variety of solutions for potential new customers and allow our existing customers an easy upgrade path to realize the additional benefits. We knew, based on our market research and customer comments, that the IQ-TEX 4 would be well received by the industry, and over \$1M of new orders signed during the show certainly provided confirmation. Overall, we have been very encouraged with the overwhelming turnout and positive feedback from ITMA, and believe the IQ-TEX 4 will revolutionize the way our customers manufacture their products." concluded Mr. Cohen.

About Elbit Vision Systems Ltd. (EVS):

EVS offers a broad portfolio of automatic State-of-the-Art Visual Inspection Systems for both in-line and off-line applications, and process monitoring systems used to improve product quality, safety, and increase production efficiency. EVS' systems are used by over 650 customers, many of which are leading global companies.
